

Full Height Turnstile – Single & Dual Lane

Model FHS-PC-01,FHS-SS-01,FHD-PC-01,FHD-SS-1

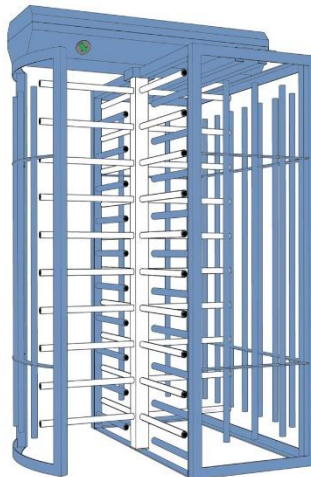

For un-manned entrances with high security application, user-friendly and robust construction makes Full height turnstile suitable for high through put applications

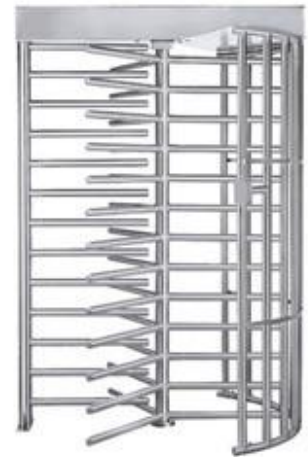

- Application areas: Defense , Atomic Energy, Manufacturing , Un-manned Application
- Design : Robust design at affordable price.
- Available in Single & double walkway
- Mild steel powder coated OR stainless steel frame and stainless steel Rotor (304 grade)
- Drive: Electro mechanical hand operated
- Rotor : 4 X 90 degree OR 3X120 degree
- Lane indicator on Both Side
- Four cage type & economical versions are available .
- Long life cycle & low operating cost .

4X90 degree

4 X 90 degree

3 X 120 degree

Function

- Rotor: 4 X 90 degree fitted with spigot passing through self aligning barring , bi-directional control.
- Passage width : 530 mm approximate .
- Configuration in either Normally Closed (N/C) or Normally open (N/O) mode
- Positive action lock to prevent two passage at one time,
- Hydraulic Damper is used to ensure smooth and quiet operation .
- An anti backup device prevents reverse rotation once the head has moved 30 degree from its rest position
- A self centering mechanism to ensure complete rotation of the head to the rest position.
- Integration: With all type of access control panel/Reader available in the market, two relay output required.
- Power: 230 VAC +/- 10% at 50 Hz, 50 Watt Power consumption per lane .
- Throughput 15 persons per minute per lane .
- Micro-controller based logic control board
- CE certified SMPS
- Optional : canopy , visitors card drop box ,individual counter, U Bar type rotor arms ,fixed frames with acrylic – poly carbonate panel .
- Floor Space : 1500 X 1500 for Single lane & 2200 X 1500 mm for dual lane , height 2200 + 500 mm
- (Clearance for Maintenance) +/- 5%

MANUFACTURER :

ROBSTUR AUTOMATION

Survey No. 25/5 B ,Sinhagad Road , Nanded
